Part 3 - read and answer

Tommy and his brother Shaun were scrap collectors. Since they were young, they loved to fix up all kinds of vehicles. They were hard workers and dreamed of having flash cars but could never save the money.

One Monday morning they got a call from an old man who had an old car he wanted to sell. There was no money in old cars but they could use it for scrap. The old man met Tommy and Shaun to show them the car. The car was in a big lock up. The man said it used to be his pride and joy. He showed them photographs of when he used to take it to shows and rallies. He had not been able to drive it for a long time and it was in a bit of a state. Tommy paid the man £210 for it. Shaun thought he was mad.

Tommy and Shaun worked on the car together every spare moment they had. They used the internet to find parts, getting bits and pieces from all over. They sometimes argued over how they should fix things.

One Wednesday morning 4 months and 3 days after they had bought the car, it was finished. The red paint was bright and glinting in the sun and the inside was spotlessly clean and shined. The first thing Tommy did was to drive the car to show the old man what they had done. He was delighted to see his old car looking so good again.

1. What relation are Tommy and Shaun?
2. What did Tommy and Shaun dream of?
3. What day did the old man phone them?
4. What did the old man use to do with the car?
5. Where did Tommy and Shaun get the parts they needed?
6. How long did it take to finish the car?
