CODE WORD

Try some of these puzzles and code breakers to test your brain skills! Once you've completed them, check your answers at the back of the pack.

NO CHEATING!!

For the Codeword and last three code breakers, the aim is to assign each letter to a number. Fill in all the relevant boxes with the letter to the number provided to help figure out which numbers should be assigned to the remaining letters. Each of the columns and rows make up words.

Easter Sunday

Codeword

Each number in the puzzle stands for a letter of the alphabet. With the help of our starter letters, work out which letter each number represents. For example, you can now put the letter M in any square where you see the number 18. Once you've done this for each of the starter letters, you'll have clues to help work out which letters appear in other squares.
