v.1

MONTHS

The Roman calendar originally had ten months, which explains why September, October, November and December are based on the latin words for seven, eight, nine and ten. Search for the months and their translations below.

TIME & SEASONS

The seasons are caused by the tilt of the Earth as it orbits the sun. For part of the year the sun shines longer on one hemisphere resulting in summer. Tilt your head and search for these words related to time and the seasons below.

VERBS 3

23

Languages typically have a mix of regular and irregular verbs. A regular verb has a predictable conjugation. An irregular verb has a conjugation that does not follow the typical pattern. In English, many of the most common verbs are irregular.

I N A I T Á N C O L N I D N F F O
T R T A N U L N I N Z O T T R A T
T T Á É X R Á I R P F T T N A E R B
