MORE NUMBERS

A zillion is often used to describe a huge number, but it doesn't actually have a defined value. We won't make you count to a zillion, but below you will find some more numbers to add to your vocabulary.

MONTHS

The Roman calendar originally had ten months, which explains why September, October, November and December are based on the latin words for seven, eight, nine and ten. Search for the months and their translations below.

TIME & SEASONS

5

The seasons are caused by the tilt of the Earth as it orbits the sun. For part of the year the sun shines longer on one hemisphere resulting in summer. Tilt your head and search for these words related to time and the seasons below.
